

Feel Me

Simulates symptoms of mental illness

User story

What are the benefits?

- Increase empathy, knowledge, and discussion
- Shift from theoretical to experience-based learning
- Improve psychosocial learning environment
- Raise interest and reduce stigma

Feel Me

Simulates symptoms of mental illness

Challenges are...

- To get it into every school
- To use the right "tone"
- To have an app relevant for children
- To have the right support for teachers and parents
